DESCRIPTION:
CityU highly recommends Google Chrome or Mozilla Firefox as your preferred browser while using CityU systems.

If you can't seem to get into the Student or Faculty Centers, you may need to disable pop-up blockers.

If you are using IE (Internet Explorer), which we highly suggest you don't (unless you are using eCampus/SharePoint), you may need to change the compatibility view settings.

If you are unable to open forms, you might need to adjust your security and privacy settings.
