OVERVIEW: Viewing feedback on an assignment is important to the learning process. Rubrics are frequently used by instructors to provide meaningful feedback to students on specific assignment criteria. Students should review all feedback provided by their instructor so that they can incorporate it into their learning.

HOW TO VIEW RUBRIC FEEDBACK IN BLACKBOARD:

1. Access your Blackboard course shell and go to My Grades on the course menu.

2. On the My grades page, locate the assignment you want to view the rubric for and click on View Rubric.
3. The rubric will open in a new pop-up window (make sure browser pop-ups are enabled) in Grid View (the default).

4. The level of achievement awarded will be highlighted in blue. Any feedback provided by the instructor on each criteria will be visible just below the selected rubric criteria description.

5. If the view is switched to **List View**, by default students will not see the feedback provided by the instructor.
6. In order to see the feedback in List View, students must select the **Show Feedback** option or switch to Grid View. In List View the feedback appears below the grading criteria.
